

We are **ZESTRON, a division of the WACK Group**, and both the world's leading supplier of environmentally friendly cleaning products and a technology-leading service provider for moisture-robust electronic assemblies.

Our customers include leading companies, particularly in the automotive/e-mobility, LED lighting technology and production automation sectors.

Developing our technologies in a way that it is most beneficial for our customers is our top priority.

**Our goal:** world market leader in the fields of moisture resistance, insulation coordination and corrosion in electronic assemblies!

In order to achieve this goal together, we are looking for a **ZESTRON Reliability&Surfaces team at the Ingolstadt location**

## Electronic Engineer (m/w/d)

### Your area of responsibility:

- Execution of technology coaching for damage analysis and risk assessment
- Development and presentation of lectures (online and in the presence), specialist articles as part of our Academy
- Company representation at technology platforms and conferences
- Participation in research projects and studies
- Participation in the new and further development of our analysis and stress tests for quality control

### Your profile:

- Studies in electrical engineering or a comparable subject
- Desirable: focus on power electronics
- Master's degree or higher
- Experience in the reliability test field and/or in the coordination of insulation
- Cross-disciplinary thinking
- Enthusiasm for transferring knowledge and confident standing online and in the presence
- Confident skills of German and English

### We offer:

- A very secure permanent job
- Forgiving and family company culture
- A versatile and interesting area of responsibility from technology coaching to reliability studies and research projects
- The possibility of working at one of our 8 foreign locations
- A pleasant working atmosphere in a highly motivated team from different disciplines with a flat hierarchy
- Careful induction and opportunities for targeted personal development, possibly also promotion
- A performance-based salary
- A company canteen with daily freshly prepared dishes and social events
- A modern new building (from the end of 2023)

### Become part of our expanding family business!
