2023 GIJÓN, SPAIN

Sala de pinturas  
LA LABORAL

# RENEWABLES GO INTERNATIONAL

## Networking event Europe-Africa

European Sustainable Energy  
Cluster partnership for Africa

The ESECA project aims at supporting a joint internationalisation strategy of European SMEs from the renewable energy and smart grids sectors towards sub-Saharan African markets.

**THIS TWO-DAYS EVENT,  
HOST BY METAINDUSTRY4,**

**WILL BE THE OPPORTUNITY FOR YOUR COMPANY TO...**

**Financial support available  
for SMEs to participate!**

European Sustainable Energy  
Cluster partnership for Africa

- **Contact** with companies from France, Italy, Germany, Basque Country and Asturias working on renewable energy and smart grids sectors.
- **Learn** about success stories from European companies making business in Africa.
- **Design** the future business missions to the target markets of the project: Kenya, Tanzania, Senegal, Ghana, and Rwanda.
- **Discover** the regional capabilities of Asturias, a region in the north of Spain with a long-tradition potential in the industrial sector, with a high level of expertise.
